

## MATERIAL SAFETY DATA SHEET

CD Medical

1. **Product** Peeleasy Wipes  
2. **Category** Adhesive remover  
3. **Presentation** Box of 30 sachets containing folded wipes

### 4. Description

Peeleasy wipes are a way to painlessly remove medical adhesives from the skin without damaging it or causing trauma; they are made with a silicon-based solution which medically removes the adhesive residues from the skin gently and painlessly, without causing irritation or damage to the fragile and sensitive skin.

### 5. Hazards Identification

<u>Hazardous Component</u>	<u>CAS Number</u>	<u>Type of Hazard</u>
Hexamethyldisiloxane	107-46-0	Flammable

### 6. Ingredients

Hexamethyldisiloxane

### 7. First Aid Measures

- Skin contact: N/A  
Eye Contact: Irrigate thoroughly with water for at least 15 minutes, holding the eyelid apart if necessary. Obtain medical attention if necessary.  
Skin contact: In case of skin irritation, discontinue contact and flush skin with water for at least 15 minutes. Obtain medical attention if necessary.  
Inhalation: Remove exposed person to fresh air. If breathing difficulties occur get medical attention. If not breathing, give artificial respiration.  
Ingestion: Do NOT induce vomiting. Get medical attention

**Important Symptoms and Effects:** Liquid, aerosols and vapours of this product are irritating and can cause pain, tearing, reddening, and swelling accompanied by a stinging sensation and/or a feeling like that of fine dust particles in the eyes.

**Notes To Physician:** Treat Symptomatically.

### 8. Fire Fighting Measures

- Autoignition temperature: 340°C / 644°C  
Suitable extinguishing media: Water, Foam, Carbon Dioxide, Dry Chemical  
Hazards from Combustion: Flammable. Containers may explode when heated. Vapours may form explosive mixtures with air. Vapours may travel to source of ignition and flash back. Do not allow run-off from firefighting to enter drains or water courses.  
Hazardous Combustion Products: Carbon Monoxide (CO) and Carbon Dioxide (CO<sub>2</sub>).  
Protective Equipment and Precautions for Firefighters: As in any fire, wear self-contained breathing apparatus pressure-demand and full protective gear.

### 9. Handling and Storage Handling

Keep out of reach of children. Use with adequate ventilation. Do not store where temperatures may exceed 50°C. Do not puncture or burn, even when empty. Observe local disposal of waste

Doc No.			
Version. No.	02	Pages	1 of 2

regulations. Read the label before use. Do not mix with other chemicals. Keep out of reach of children.

Storage: Do not store above 50°C

Transport: Peeleasy Wipes are classified as class 3, packing group II for transportation under Flammable Liquid UN 1993

**10. Toxicological Information:** Acute toxicity

None known Local effects: Excessive exposure may affect human health as follows.

Skin contact: Slightly irritating

Eye contact: Slightly irritating

Inhalation/ingestion: May cause dizziness, drowsiness, confusion, headaches.

Carcinogenicity: Information not available

Lethal dose/concentration values:

Component	LD50 Oral	LD50 Dermal	LC Inhalation
Hexamethyldisiloxane	>5000mg Kg <sup>-1</sup> (rat)	16mL kg <sup>-1</sup> (rabbit)	15,956 ppm 4h (rat)

**11. Exposure controls / Personal Protection**

Eye/Face Protection: Not applicable

Skin & Body Protection: Not applicable

Respiratory Protection: Not applicable

Hygiene Measures: Handle in accordance with good industrial hygiene and safety practice

**12. Ecological Information**

Volatile siloxanes rapidly evaporate into the atmosphere, where they degrade. They do not persist in water or soil. No acute fish toxicity (96h) is predicted. May cause long term effects in the aquatic environment.

**13. Regulatory Information**

The Medical device is classified as class I according to MDD 93/42 EEC.

**Note:** This Material Safety Data Sheet contains information offered as a guide to the handling and use of Peeleasy Wipes, and has been prepared in good faith with information believed to be correct as of the effective dated listed

Issue Date: June 2022
